Global Recruiting Expert

contribution to the big picture

Product Lead * (Kassel, DE)

- Together with our Industry Leads, you will develop and establish the

Large Scale Solutions and translate the market strategy into a product strategy.

- Your focus in this joint work is to define what SMA can realize or develop as products and how customer requirements are translated into product features
- You design the overall strategy for this product type with focus on customer value and solution fit and are responsible for the respective product/feature roadmap
- You ensure the harmonization of the different products within your product category (regarding user experience, feature sets, system interfaces, market aspects)
- Besides your role as contact person for internal and external stakeholders regarding your product type, you transfer the planning into the implementation and are overall responsible for the realization/development of the products in your category

Your skills are in demand

- Degree in the field of industrial engineering, mechanical engineering, physics or comparable
- At least 5 years of professional experience, ideally in product management or in a comparable position
- Very good knowledge in the field of renewable power plants
